Art Unit: 3742

Claim Rejections - 35 USC § 112

Claims 6-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6, line 2, recites "hooking means," and claim 8, line 3, "support means," neither of which has antecedent basis.

Claim Rejections - 35 USC § 102

Claims 1, 9, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. 5174273 (US'713).

Referring to Figs. 1 and 2, and col. 2, line 35, through col. 3, line 29, US'273 discloses a cooking assembly with a bath 33, exterior heating means⁴⁰, a peripheral trough 7, bath drain filter 19, and trough drain 39.

Claim Rejections - 35 USC § 103

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over US'273.

The claim differs from US'273 only in calling for a bath wall thicker at its bottom portion than its side. However, such cannot be regarded to patentably distinguish the claimed invention from the prior art of record, since various conventional adjuncts result in a thicker bottom: perhaps most common is a heat distribution plate to enhance uniformity of heating, ordinarily made of copper or aluminum alloys.

Allowable Subject Matter

Claims 3-5, 12, and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 6-8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
